“

So far, I would give 100 stars if possible. Our technician was amazing! As an elementary school teacher, I am constantly online. I work, I watch Netflix, my husband is gaming, and all 3 kids are streaming movies. It holds up so well! There is no slow down — absolutely NOTHING buffers. Going from satellite to fiber was sure life-changing. Thank you so much!

“

It was a seamless process — from initiating the service through SmartHub to the final install. We are extremely pleased with our speed! The hubby was kind of skeptical but as soon as he witnessed it in action he was a believer! We had always paid for the 250 Mbps package from our previous provider but never came close to that. HUGE difference, and we love it!
